Career Objective

Passionate and detail-oriented MERN Stack Web Developer with a strong foundation in building responsive, user-friendly, and modern web applications. Enjoy solving problems, learning new technologies, and collaborating with others to create high-quality solutions. Eager to contribute, grow as a developer, and build impactful software that meets user and business needs.

Skills

Frontend: React.js, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Next.js

Backend: MongoDB, Node.js, Express.js, REST Api

Other Tools: GitHub, Canva, Figma

Deployment: Vercel, Netlify, GitHub, Surge, Cloudflare

Interpersonal Skills: Problem-solving, Time management, Team collaboration, Team Lead, Communication

Projects

1. E-Commerce

[Live Site](#) | [Client](#) | [Server](#)

- Core Features: Built a responsive full-stack e-commerce platform with secure user authentication, product filtering, search functionality, and a seamless cart/checkout workflow.
- Backend & API: Developed RESTful APIs using Node.js and Express.js to execute CRUD operations for product inventory and order management.
- Database & Management: Modeled MongoDB schemas to manage product listings, user profile data, and transaction histories efficiently.
- UI/UX & Responsiveness: Designed an intuitive, mobile-first frontend using React.js to deliver a seamless shopping experience for regional users.

2. E-Tuition

[Live Site](#) | [Client](#) | [Server](#)

- Core Features: Engineered a two-sided platform matching students with qualified tutors based on subject, location, and availability.
- State & Data Management: Integrated MongoDB and Express.js to handle complex querying for tutor directory filters, booking management, and profile updates.
- Security & Auth: Implemented role-based access control to distinguish student dashboards from teacher portals securely.
- UI/UX & Interaction: Formulated an interactive dashboard in React.js enabling seamless tuition request postings and application tracking.

3. Revenio-Next

[Live Site](#) | [Client](#)

- A responsive e-commerce web app which is made of Next.js.
- Technologies: MongoDB, Express.js, Next.js, Node.js
